

EQ-Condenser

Versatility; Enhance performances

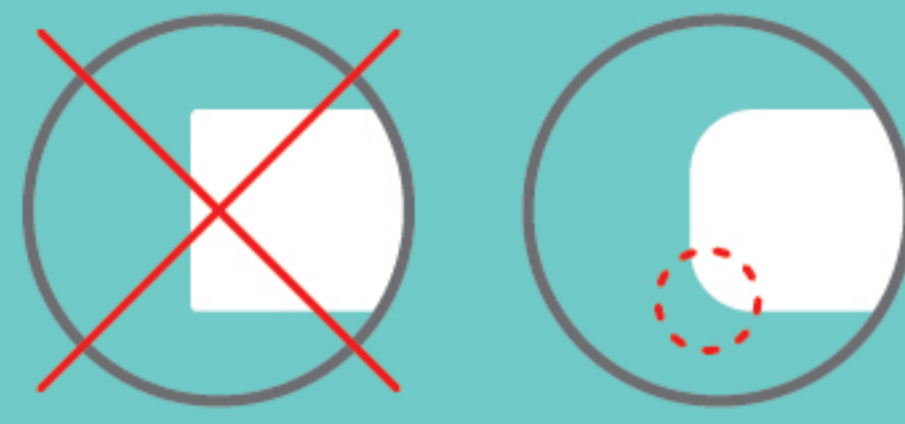

I Superior flexibility with NiTi.

Flexible NiTi tip will let you compact apical third part more thoroughly

I Flat End & Smooth Edge

Prevent from being stuck within dentin and allow you to condense exactly

Stainless Steel tip

I Laser marking (5mm on the tip)

This laser marking will let you save time for measuring

I Systematic color;

Matching with EQ-V packtip color

I Size

40 NiTi/80 SS
50 NiTi/100 SS
60 NiTi/120 SS

I Resistant to chemical & Autoclave

Stress free from chemical & heat damage
